RE: ALTA DRYWALL (INNOVATIVE DRYWALL)

TO WHOM IT MAY CONCERN:

I have worked with Doug Bellamy of Alta Drywall for 9+ years in the Residential side of the business and Alta Drywall has performed well for us in the field under Doug's leadership and management. They have also done multiple projects for us in the Multi-Family side of the business.

Pardee Homes takes a strong stance on adherence to our Safety program and Doug has been very proactive in implementing processes and procedures that help them to work safely on our jobsites.

Alta has been competitive in pricing and is fair in requesting any extras.

Sincerely,

A handwritten signature in black ink that reads "J Forge".

To whom it may Concern,

For over 10 years I have had the privilege to work with Alta Drywall. While working with Fieldstone, Lennar , Legacy Building Services, and Estes construction management company I have always included Alta Drywall on all the residential and multi-family projects. During that time I found Alta Drywall to be competent in all stages of the construction process. From the receipt of a clean and accurate bid, through the contract negotiations, to the final construction work, I have found Alta drywall to be responsible and ethical at all times.

During that time it was always been a pleasure to work with Alta drywall and the staff that Doug has put together. I continue to work with Alta drywall and recommend them to my clients when asked for recommendations of residential and multifamily drywall contractor.

Re: Alta Drywall

To Whom it May Concern:

Alta Drywall was recommended to me by a close friend and colleague. I was looking for a quality and competitive drywall contractor for a very high profile project for a long term client. When I asked my colleague, who is also a building industry professional, who he would recommend he suggested we try Alta Drywall. In our first year of doing business with Alta, I awarded them two consecutive multi-family projects, Brighton Place, seventy seven units in Poway CA and large prevailing wage project in Desert Hot Springs CA.

Throughout the entire process, from negotiation of contract thru customer service, I found them to be quick to respond, knowledgeable, fair, and extremely professional. They provided a quality product in a timely manner. Their management team and organized approach is extremely professional and I consider them one of the very best subcontractors I've dealt with throughout my career. I value them as a trade partner and anticipate a lasting relationship. Anyone considering them for a project should rest assured that they are in good hands.

Subject: Letter of Recommendation and Appreciation

Dear Doug,

I would like to commend you, Jason and your entire staff for a job well done on our recent projects in Imperial County, Villa Fortuna Apartments in Brawley and Villa Del Sol Apartments in Calexico. Alta was presented with a challenge to perform production drywall and manage 182 units and common area commercial buildings at two locations simultaneously, exceeding our expectations.

Alta Drywall has been a key trade partner on my build team for over 10 years, and I expect this relationship to continue on into the future. Not only have you developed a superior quality control program but always exceed the safety measures we require. The excellent recycle program you have adopted is impressive and met all our LEED program requirements while also keeping the work area immaculate. We are also impressed with your sincerity and commitment to safety and appreciate the zero accident record on the projects and adhering to all OSHA practices. Your company has proved to employ highly skilled labor force, which is reliable and assigned capable supervision at all times while providing one of the best finished products for our large apartment projects. I want to acknowledge also your organization being active in the community and remaining a valued member of the SD Building Industry Association.

Thank you for a job well done, and please feel free to share my contact information with other developers so I can personally recommend the Alta Drywall, Inc. team for excellence, fair price and quality of work!

Best Regards,

Janice Patterson

RE: ALTA DRYWALL

To Whom It May Concern:

REFERENCE LETTER

As a commercial and public works construction project manager, I have worked with ALTA DRYWALL on a number of projects over the last several years. Every time it was a very positive experience. All work was always completed in a highly professional manner within the established schedule and budget constraints. Doug Bellamy, the company's owner, was always personally available to address any questions and communicated effectively and in a timely manner. At numerous times this helped the Project Superintendent and the Project Manager deal successfully with unexpected situations that may potentially arise on any job. Mr. Bellamy and his employees were always there to support us and never hesitated to go an extra mile when it was necessary.

I would highly recommend ALTA DRYWALL to anyone needing a highly professional and reliable drywall contractor.

Please free to call me with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Max Laur', with a stylized flourish at the end.

Max Laur, LEED AP
